

## I-8058

8-channel Isolated Digital Input Module

### Features

- Digital Input Channels: 8
- Input type: differential
- Input Voltage
- Logical High: AC/DC 80V mini  
Logical Low: AC/DC 30V max.
- Maximum Input voltage: AC/DC 250 V
- Operating frequency: 100KHz (Max.)
- Isolation Voltage: 3750 Vrms
- LED indicator for each channel of D/I
- Power Consumption: 0.8W
